A MIXED UP AFFAIR IN THE COUNTY .-There was considerable commotion in Arlington d strict, Alexandria county, last night, growing out of a dispute over the capture of a mocking bird's nest. Is appears from statements of various parties, that a Justice of the Peace of the curry had been watching a nest of mocking birds, on the farm of a neighbor. He designed the young birds for his sister, who is in Wash ington. A family, recently moved to the county, learning of the existence of the nest, stole a march on the dispenser of the law, and obtained on a Sunday morning possession of the young birds. This acton excited the ire of the Justice, and he complained to the string sheriff, who, under the law, was compelled to prostenie. A warrant was is-ued and the trial took place in the offen of the offended Justice, which resulted in a verdic; of guilty against the possessors of the mocking bird's nest, carrying with it a fice of \$10 and the costs of the case. The costs were immediately paid but the fine day. was not. The trial was an exciting one from the fact that it took place in the Postoffice building at Arlington, the defendants claiming that they had a right to converse one with another in a public building on public matters. no jurisdiction over the matter. When the attempt was made by a calored constable to arrest the cap urer of the bird's nest, who is deaf and otherwise efflic ed, he declived to go with him on the ground that the warrant was not made out in his proper name. The constable inform. ed him that he intended to take him dead or alive, and attempted to take him by force. The wife of the accused seeing her busband being dragged along by the constable, and knowing of his affliction, went to his relief and rescu d him from the hands of his captor. The new camer and his wife were, nowever, arrested last night on the charge of assaul; and battery by the seling sheriff of the county, and taken to the Postoffice building where they waved an examination paid the costs, and removed the case to the County Court. A neighbor, who defended the accused in very strong words, was fined \$5 for contempt of court. He refus-Postoffice department and did not recognize the surherity of the Justice. MONETARY AND COMMERCIAL

The week has been rather a quiet one, though for this season of the year there is no cause for complaint. The receipts of grain continue to improve, and the market here keeps pace well with our more pretentious neighbors and the farmers are finding out that Alexandria is as good a grain market as they can find. The coal trade is also more active, and the receipts and shipments are daily improving. In money matters there is nothing worthy of special note. There is no scarcity and no difficulty in obtaining loans on good collaterals. In Baltimore the supply of loanable funds is very abundant, and borrowers in good credit find no difficulty in obtaining full accommodation. The quoted rates are the New York money market exceeds the decent on U.S. bonds and 21a3 per cent on Stock Exchange collateral. Time loans are 3a5 per cent, the higher rate being for long time. Prime mercantile paper is 3:41 per cent. Government Hetrews throughout the world by fasting and bonds are quiet. Virginia consols sold yesterday at 821 to 812 regular way, and 811, seller 60 the temple at Jerusslem. It was also on the 9th days flat, and the 10 40s sold at 534a535, against 53% £31. Peelers were stronger, selling at 391. by against 29 previously. Virginia Midland fives sold yesterday at 100:a1002.

FERTILIZERS.

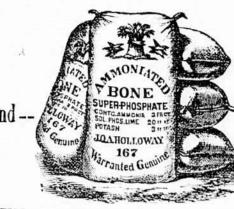

TO WHEEAT GROWERS:

The undersigned, PIONEER in the manufacture of FERTILIZERS in this city, and ORIGI-

NATOR in 1858 of the formulas and processes of manufacture of Excelsior & Ammoniated Phosphate

So well and favorably known by the agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these FERTILIZERS as manufactured by him, continues to offer them to the farmers and planters of Maryland and Virginia, with the assurance that the High Standard Quality of each will be main. tained as heretofore.

The above are the most concentrated FERTILIZERS ever offered to the farmer, combining all the stimulating qualities of Peruvian Guano and the ever durable fertilizing properties of bones

all the stimulating qualities of Ferminan Guano and the ever durable fermining properties of bodies in fine, dry powder, prepared expressly for drilling.

For growing wheat, it is the universal opinion of the farmers of Maryland and Virginia, after over twenty years' experience in the use of these Ferminizers manufactured by me, that an application of 100 nounds in could in the effects to 200 nounds of the other forms. ion of 100 pounds is equal in its effects to 200 pounds of any other fertilizer or guano, therefore fully 50 per cent cheaper.

With my present advantages and superior facilities for manufacturing. I challenge competition with any fertilizer sold in the United States, in quality, mechanical condition and price. By strictly adhering to my original formulas, using only the most concentrated materials and superintending in person their manufacture, as for the past twenty three years,

UNIFORM QUALITY IS GUARANTEED.

Farmers, to secure the ONLY GENUINE EXCELSIOR and PHOSPHATE prepared seconding to my original formulas established in 1858, should see that every bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.
